PART V LIBRARY COLLECTIONS

Note: Report physical units for each item, both cataloged and uncataloged, held at the end of the year. When volume data are not available, title information should be provided. Physical units are volumes, items or pieces. Titles are publications which form a separate bibliographic whole, whether issued as one or several volumes, reels, disks, slides, or parts. The term applies equally to printed materials, such as books and periodicals, and to audiovisual materials and microforms.

		<u>Held at end of Year</u> Physical Units
42.	<p>a. Books. Nonperiodical printed publications bound in hard or soft covers or in loose-leaf format.</p> <p>b. Serials. Note: Exclude microforms. Serials include periodicals (magazines), newspapers, annuals (reports, yearbooks, etc.) memoirs, proceedings, and transactions of societies. Except for the current volume, count unbound serials when the library has at least half of the issues in a publisher's volume as one unit. Serials are publications issued in successive parts, usually at regular intervals, and as a rule, intended to be continued indefinitely. Enter number of subscriptions under item #61- "Current serial subscriptions".</p>	<p>_____</p> <p>_____</p>

PART VI LIBRARY SERVICES

48. Public Service Hours for all outlets per year
Include both main library, branches, bookmobiles, and Books-by-Mail Only using the following method: If the main library is open 60 hours per week count 60 hours. If you also have 3 branches open the same number of hours as the main library (regardless of whether or not all facilities are open at the same time) add $3 \times 60 \text{ hrs}$ for the branches = 180 hours for a total of 240. $240 \times 52 = 2,080$. Report 2,080 hours.
-
49. Library Visits per year
Include total number of persons entering the library for whatever purpose during the year. If an actual count of visits is unavailable, determine an annual estimate by counting visits during a typical week and multiplying the count by 52. A "typical week" is a time that is neither unusually busy or unusually slow. Avoid holiday times, vacation periods for key staff, or days when unusual events are taking place in the community or the library. Choose a week in which the library is open its regular hours. Include seven consecutive calendar days, from Sunday through Saturday (or whenever the library is usually open).
-
50. Reference transactions per year
A reference transaction is an information contact which involves the knowledge, use, recommendations, interpretation, or instruction in the use of one or more information sources by a member of the library staff. It includes information and referral service. Information sources include printed and non-printed materials, machine-readable data bases (including computer-assisted instruction), catalogs and other holdings records, and, through communication or referral, other libraries and institutions and persons both inside and outside the library. The request may come in person, by phone, by fax, mail, or by electronic-mail from an adult, a young adult, or a child. When a staff member utilizes information gained from previous use of information sources to answer a question, report as a reference transaction even if the source is not consulted again during this transaction.

Note: It is essential that you do not include in-house directional transactions in the report of reference transactions. A directional transaction is an information contact which facilitates the use of the library in which the contact occurs and which does NOT involve the knowledge, use, recommendation, interpretation, or instruction in the use of any information sources other than those which describe that library, such as schedules, floor plans, handbooks, and policy statements. Examples of directional transactions include giving instruction for locating, within the library, staff, library users, or physical features, etc., and giving assistance of a non-bibliographic nature with machines.

Circulation Per Year

Circulation Transaction: The act of lending an item from the library's collection for use generally (although not always) outside the library. This activity includes charging, either manually or electronically, and also renewals, each of which is reported as a circulation transaction. Interlibrary loan transactions included are only items borrowed for users. Do not include items checked out to another library. Please report Total annual circulation for FY03 and details for each of the following categories of materials. The totals for the Categories and Formats columns should be the same.
